A Food to Work On

Work! Work!! Work!!! Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers-and this means Unesda Biscult-are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of Uneeda Biscuit, the finest soda cracker ever baked. An energy-giving food of surpassing value sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. Truly the food to work on.

Whoever you are-whatever you are-wherever you work-Uneeda Biscult.
